## OBJECTIVE

---

Aspiring Java Developer passionate about building scalable backend solutions and eager to kickstart my career with real-world projects.

## EDUCATION

---

**Bachelor of Information Technology**, Rashtrasant Tukdoji Maharaj Nagpur University Expected 2026

**Higher Secondary Education** 2021 - 2022

## SKILLS

---

<b>Technical Skills</b>	HTML, CSS, JS, Java
<b>Soft Skills</b>	Problem Solving, Communication, Teamwork, Patience

## PROJECTS

---

**Online WebCode Editor.** A browser-based live frontend code editor built using HTML, CSS, and JavaScript. This tool allows users to write and preview HTML, CSS, and JavaScript code in real-time — all within a single interface. ([Try it here](#))

**Image Searcher** A sleek and user-friendly image search application powered by the Unsplash API. Users can search for any keyword and instantly view high-quality images fetched dynamically from the web. ([Try it here](#))
